

## Oracle E-Business Suite Capabilities

Infosemantics brings senior subject matter experts adept at implementing, supporting, and maintaining earlier releases of the Oracle E-Business Suite through Release 12. Our functional subject matter expertise spans the Financials, Supply Chain, Manufacturing, CRM, and HCM suite of modules. Our technical resources are well versed in application customization, personalization, and Oracle's reporting toolset, and bring significant depth around data conversion and interface creation. Our Apps DBA/architect resources are versed in the intricacies and optimization of the Oracle RDBMS starting with Oracle 7.x to the latest 11g release including RAC implementation. Application development experience includes both Oracle and non-Oracle solutions.

The following are the areas of expertise

- Project planning and management
- Assessments
  - R12 Upgrade/Re-Implementation Planning Business Intelligence readiness assessments
  - Functional & Technical Assessments
- Business process re-engineering
- Implementations/Re-implementations, and Upgrades
- Workflow and Approvals Management optimizations
- On-shore, Near-shore and Offshore resources for project related tasks and remote support
