

Business Intelligence Capabilities

Infosemantics is the leader in implementing reporting, Data Warehouse, and Business Intelligence solutions across a wide-variety of industries. Our experience is both with custom solutions and pre-built packaged deployments for Oracle E-Business Suite (earlier releases through Release 12), PeopleSoft Enterprise, and Siebel CRM solutions, along with integrating several other data sources for a unified representation of data for business users and stakeholders.

Areas of expertise:

- Project planning and management
- Business Intelligence readiness assessments
- Solution Architecture and Data Modeling/Architect services
- Tool selections and recommendations (build versus buy)

Prominent solutions in the market place:

- **Oracle Business Intelligence Enterprise Edition (OBIEE)**, formerly Siebel Analytics) – Including pre-built BI Applications for Oracle E-Business Suite, and PeopleSoft Enterprise Applications
- **Teradata DecisionExperts** (formerly Decision Point Software) – pre-built ETL and metadata content for Oracle E-Business Customers
- Custom Data Warehouse and ETL solutions using Informatica ETL, Oracle Warehouse Builder, and other solutions
- Experience with **IBM Cognos BI Suite** and **SAP Business Objects** as the presentation layer

Analytical OLTP reporting solutions reporting directly from Oracle E-Business OLTP database:

- Noetix Views
- EIS Technologies
- Oracle Discoverer
- Oracle Daily Business Intelligence

Sample list of our past/present performance.
